

GET INVOLVED

free to breathe WELCOME TO JOEY AND AUDREY'S 2016 FUNDRAISING PAGE

Free to Breathe Lung Cancer Awareness

In August of 2013, our Aunt Donna lost her battle with lung cancer. Each November since then, our family has participated in the Free to Breathe 5k Run/Walk and each year for our birthdays, we have raised money for this event to support lung cancer research in lieu of birthday gifts.

What if we told you that you could join a passionate and connected nationwide community simply by making a donation? A community dedicated to raising funds for lung cancer research and treatments that will save lives. A community that believes that one day we will all be Free to Breathe. Well, you can.

We're fundraising for Free to Breathe, will you donate today and join us in the movement to double lung cancer survival?

Here are ways you can join us in making this vision a reality:

- Click on the "Donate" button to support our fundraising efforts with a donation
- Spread the word about our fundraising efforts by sending the link to this webpage to everyone you know
- All of the above!

Free to Breathe unites people who are passionate about improving the lives of each and every person affected by lung cancer. This is our opportunity to make the world a better place through our fundraising efforts. And it's your opportunity to help restore hope to those faced with a lung cancer diagnosis.

Thank you in advance for your support and generosity. Please share this page with your friends and family. Together, we can make a difference for each and every person whose life has been touched by lung cancer. Together, we can all be Free to Breathe.

About my non-profit:

Free to Breathe is a 501(c)(3), non-profit organization dedicated to doubling lung cancer survival by 2022. We will accomplish this by:

- Funding research with the greatest potential to save lives
- Helping all patients fully understand their treatment options
- Ensuring molecular tumor testing is standard of care
- Doubling the number of lung cancer patients on clinical trials
